

## **Parkside Profile**

Our intake is fully comprehensive and we are committed to providing an education which allows all students equal access to a wide range of appropriate opportunities. The school has a friendly, caring and purposeful atmosphere, which is based on respect for every individual and for the community as a whole.

Parkside is taking urgent and inclusive actions to seek further improvement. We are determined to provide the best education for all students.

Our school motto is: “Small school, Strong values, Big experiences” and we want someone with the skills, energy and enthusiasm to play a key part in further developing our commitment to helping every student engage fully in their learning and make the most progress they can.

This is a very exciting yet challenging time for Parkside and a great opportunity for an applicant with drive, energy and ambition. Following significant changes to the support and teaching staff structure, we are fortunate in securing a committed workforce who are going to take our school to its next stage of development. Their expertise and hard work are fundamental to the positive learning experiences that our young people gain during their time with us. The school offers a range of extra-curricular activities and there is a wide range of visits and trips to enrich and extend students’ learning.

Relationships within the school, and with the wider community, are excellent. The Governing Body is active and is rapidly responding to the school's needs in supporting the new strategic direction of the school.
